

# CUSTOM SLING

## OVERHEAD LIFTING SOLUTIONS

Founded in 1954, **Industrial Sling Company** has provided overhead lifting solutions to contractors at job sites, fabricators on shop floors, and the metalworking industry. The product is produced to meet or exceed 29 CFR 1910.184 and ASME B 30.9 guidelines. Products are supported with technical assistance and a comprehensive inspection program to meet OSHA Standards. Whether you want to lift 100 or 100,000 pounds, we can provide customized sling solutions to safely meet your requirements.

- Grade 80 & 100 overhead lifting chain & fittings
- Custom wire mesh slings
- Custom & standard nylon/polyester slings
- Synthetic round slings
- Heavy-duty chain & cable sling
- All slings tagged to OSHA guideline B 30.9 with serial number, reach, diameter & working load capacities
- Chain sling certificate with every chain
- Custom fabricated slings to your specifications
- Vacuum lifters and magnets
