

STEINER Mod Shop

Custom Product Solutions

Mod Shop & Custom Product Solutions

Steiner's MOD shop provides custom product assembly solutions to improve the lead time within your manufacturing process. Outsourcing sub-assemblies, modifications or simple kitting improve

turnaround time and reduce labor expenses from ordering, receiving, material handling and storage. In addition to reducing inventory costs this increases your overall efficiency and productivity.

We offer competitive pricing, an experienced staff and a large product offering covering a wide breadth of solutions.

- Wire harnesses
- Cable assemblies
- Sub-assemblies
- Multiple part consolidation
- Electrical whips
- Enclosures
- Part modifications
- Combination starter modification
- Cut-to-length strut, conduit, rod & din rails
- 80/20 extruded aluminum framing systems

Featured Solutions

80/20 Custom Solutions

80/20 Inc, the manufacturer of the Industrial Erector set, is the established leader of T-slotted aluminum extrusions. From small prototypes to entire automated facilities, assembly is easy with a simple ball end Allen wrench. You have the freedom to design a custom frame for your machine, instrument mounts, enclosures, switches & controls without limitations.
