

Combining best-in-class print technology with industry leading labeling and software capabilities.

Epson Print Technology...

Epson is a global technology leader dedicated to becoming indispensable to society by connecting people, things and information with its efficient, compact and precision technologies.

Combined with Panduit's Labeling and Software Capabilities...

Panduit creates leading-edge labeling solutions for electrical and network environments, from the data center to the telecom room, from the jobsite to the plant floor, Panduit has you covered.

Results in Best-in-Class Performance!

Panduit has entered into a strategic partnership with Seiko Epson Corporation to jointly develop printer and labels for the industrial, construction and network infrastructure markets. The results of the partnership are printers with best-in-class print quality, speed, capabilities and label selection. The MP100 & MP300 printers and labels are the first of many products that will be jointly developed through this partnership.
