

Versatile high-performance solid carbide drill that can be used across a wide range of materials. With one drill for all materials, stock holding can be reduced and greater machine flexibility is offered leading to reduced set-up time.

The Steiner Metalworking application team can assist you with selecting the right solid end mills for your requirements and provide guidance on process improvements for higher yield rates and cost reductions.

For assistance, call 1-800-323-TOOL (8665).

Multi-Application Drilling

Point angle of 140° ideally suited for multi-application drilling, with good centering capabilities and low thrust force design.

Wear Resistance & Tool Life

Micro-grained carbide for an excellent combination of hardness and toughness, resulting in high wear resistance and longer tool life. Coating with a special finishing treatment to reduce the friction coefficient.

Chip evacuation - Strong parallel web design combined with large flute volume, enhances chip evacuation.

CoroDrill® 462: Wide Micro Drill Range

The micro range of CoroDrill® 460 i.e. CoroDrill® 462, offers smaller drilling diameters from 0.03-3 mm (0.0012-0.118 inch) ideal for precision work on small parts.

- Bright and coated tools
- Length 6×D
- External coolant
- Multi material

STEINER

Applications

- For a wide range of materials in all industry segments, e.g., general machining, die and mold, automotive, energy and power generation
- Internal and external coolant

Benefits and Features

- High productivity and consistent tool life
- Exceptional value with no compromise on quality
- Excellent hole quality
- Reduced tooling costs
- Can be reground up to three times, extending tool life even further

- 20 bar coolant pressure
- Internal and external coolant
- Drilling depth 2-8 x D
- Drill and Chamfer ranges as standard
- Minimal Quantity Lubrication (MQL) shank compatibility as standard
- Geometry and grade suitable for multi-material applications
- Customized solutions supported by TailorMade
- Exceptional value without compromising on quality

ISO Application Area

REQUEST MORE INFORMATION

For more info about CoroDrill® 460 call **1-800-323-TOOL** (8665) to speak with a Steiner metalworking representative.
